Babar Zaman

has successfully completed the online, non-credit Specialization

Practical Data Science with MATLAB

This specialization provides the background to explore, analyze, visualize, and model data using MATLAB and represents the most in-demand career skills for employers across technical fields when working in Data Science.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
